

**Value-added Features:**

- ✓ AED/CPR training videos for all AEDs, designed to be shared with all staff.
- ✓ Modular add-on unit for additional first aid supplies, e.g. Bleeding Control Kit, EpiPen, Naloxone, First Aid Kit.
- ✓ Modular advertising add-on unit to showcase sponsors.

# It's Time for SaveStation

*Because Every Second Matters!*

With only 10 minutes to save a life, we are highly dependent on the general public to quickly find an AED and feel confident to use it.

SaveStation offers a visual standard for the public to easily identify where to find an AED - much like the blue "H" that identifies a hospital. Along with visual unity, SaveStation offers training videos to share with everyone in your workplace, as AEDs are not for trained responders only!

Ask us how you can easily convert to SaveStation and bring your program to life!
